Pune | +91-7043535627 | prapti1199@gmail.com | linkedin/prapti11 | Github/Prapti1199

Software developer with around 5 years of experience in customer-centric solutions. Skilled in both frontend and backend technologies. Proficient at collaborating with clients to create insightful and effective applications. Enthusiastic about leveraging technical abilities and a client-centered approach to make meaningful contributions to the organization.

SKILLS

Programming Languages: Java, Python, C, C++, JavaScript, SQL, shell script

Web Technologies: React.js, HTML5, CSS3

Frameworks: Spring boot, Junit, SLF4j, Gradle, Maven, Mockito, WebDriverIO, Pytest, Flask, FastAPI, Django, Jest, Selenium

Cloud Technologies: AWS, Terraform, Kubernetes, Splunk Cloud Services(SCS)

Tools: Kafka, Prometheus, Grafana, Jenkins, Git, Gitlab, Docker, Postman, Jira, Confluence, CI/CD, NATS, Splunk, Sharepoint

WORK EXPERIENCE

Senior Software Engineer

March 2025 – Present

HCL TECH

Pune

- Contributed to modernization of **Team Global Express** transportation legacy platform using React, and Python.
- Developed **Booking & Job Management** modules including adhoc bookings, quotations, permanent recurring bookings, and quick job creation with automated driver allocation.
- Implemented rate calculation and pricing workflows based on customer contracts, services, and legacy pricing algorithms.
- Enabled **multi-state operations** across Australia with **role-based access control** for operational users.
- Automated invoicing, reporting dashboards, and analytics for job tracking and financial insights.
- Integrated real-time notifications via **WebSockets** and asynchronous processing using **MQ queues** and **AQChatter** services.
- Achieved **80%+** automated test coverage using **pytest** and **Jest**.

Senior Software Engineer

April 2023 – March 2025

Crest Data

Ahmedabad

- As a **Subject Matter Expert** led initiatives to deliver scalable solutions for premium clients, driving the transition from Splunk Realtime Search to Ad-hoc Search using **Splunk, Java, and Python**.
- Played a key role in the **High Scale Event Analytics** re-architecture project for **Splunk Cloud Service (SCS)**, which resulted in a **50% reduction in event processing latency** for cloud customers. Responsibilities included managing resource allocation via **AWS Terraform**, working on **Maven Java** projects, overseeing **Kafka** topics within **Kubernetes** services, and optimizing metrics collection with **Prometheus** and **Grafana**.
- Independently led the end-to-end development of a UI feature inspired by a Splunk user idea to facilitate data export from the UI interface to CSV, and triggering action based on updates made by users and can be repeated according to user-defined criteria. This involved front-end development using **React**, back-end implementation with **Python, Java** integration with **Splunk**, and testing using **Jest, WebdriverIO**, and **Pytest**.
- Contributed to enhancing system performance and scalability by replacing real-time search with a **NATS queue-based implementation**

Software Engineer

May 2021 – March 2023

Crest Data

Ahmedabad

- Managed **Java**-based Event Analytics within IT Service Intelligence, improving data grouping, monitoring, and overall system performance.
- Optimized event action execution, reducing **memory** and **CPU** usage by **40%** during event group processing.
- Built integrations across **React, Python, and Java** services connecting with **Remedy** and **ServiceNow**, improving event tracking and alert automation.
- Resolved critical **production security vulnerabilities** affecting **10,000+** customers, including fixes for **log4j** and **Jackson** issues.
- Resolved **70+** customer issues through direct technical engagement and troubleshooting.
- Mentored team members and increased automated test coverage to **80%+** using **WDIO, Python, JUnit**, and **Mockito**.
- Collaborated within cross-functional **Agile teams** to deliver high-quality software releases.

ACHIEVEMENTS

- Awarded by **Crest Achievement Award (CAP)** from 2021-2024 for detailed analysis and resolution of customer escalations and for leading ITSI EA's developments along with efficient customer communications
- Awarded **Certification of Appreciation** from **HCL Technologies (Team Global Express)** for positivity and continuous dedication towards successful migration of legacy systems to the new platform.

EDUCATION

Chandubhai S. Patel Institute of Technology (Charusat University)

July 2017 - May 2021

B.Tech Computer Engineering

GPA : 9.54
